Part A = The practical qualifying time experience required for each certificate of Qualification.

Part B = The maximum full-time attendance at a training course approved by the Chief Officer which may be subtracted from the required practical (A) time. A further time reduction incentive has also been granted on the 1-2-3-4-Traction certificates. The full time courses for 1st and 2nd Class may be substituted for 126 hours of evening school for 1st class and 84 hours of evening school for 2nd class. Courses shall be approved by the Chief Officer and no incentive time reduction will be granted for evening school training. With the approval of the Chief Officer, the approved training course school which operates a registered plant may provide the 4th Class three month and the 3rd Class one month practical experience upon successful completion of the approved 4th or 3rd class course.

Part C = The maximum full-time Chief Officer registered installation, service and repair time which may be subtracted from the required compressor or refrigeration practical (A) time.

Part D = The class of Marine Engineering Officer certificate (steam or motor with steam endorsement) according to the S.T.C.W. requirements which will allow the candidate to write an equal class of certification with no further qualifying experience time (N.Q.T.) required. Operating experience on motorship steam plants will be considered equivalent provided it is equal to the experience time, power and equipment rating required for Operating Engineers.

(5) If an inspector finds, after its manufacture or installation, that a boiler, pressure vessel, fitting or piping for which a design registration has been issued is defective, the inspector may, despite the fact that the registration has been issued, permit the boiler, pressure vessel, fitting or piping to be operated or used within such limits of safety as the inspector considers adequate in the circumstances and shall require the manufacturer or installer to correct the defects within such period as the inspector may allow.

(6) If the defects found under subsection (5) are due to the design and specifications of the boiler, pressure vessel, fitting or piping and, in the director's opinion, they cannot be remedied, the director shall cancel the design registration, and no additional boiler, pressure vessel, fitting or piping shall be manufactured or installed based on that design.

(7) Where a boiler, pressure vessel, piping or fitting has not been manufactured or installed in conformity with its registered design but nevertheless may be used safely at a lower pressure than its design pressure, the inspector shall fix its maximum allowable working pressure having regard to its design, condition and installation and the purpose for which it is to be operated or used.

(8) Where an unused boiler or pressure vessel has been manufactured and its design and specifications have not been registered, the director may cause it to be inspected and, if satisfied that it may be operated or used safely, may issue a certificate of inspection for it as a used boiler or pressure vessel.

Requirement for licence

5. No person shall operate or use or permit a boiler, pressure vessel, fitting or piping to be operated or used unless a valid certificate of inspection has been issued in respect of the boiler, pressure vessel, fitting or piping.

“foreign currency debenture” means a debenture expressed and payable in a foreign currency;

“interest rate risk” means the financial risk associated with issuing debentures because of fluctuations in interest rates;

“person” includes a firm or partnership within the meaning of the *Partnerships Act*;

“variable interest rate debenture” means a debenture that provides for one or more variations in the rate of interest payable on the principal of the debenture debt, whether or not by reference to a method or standard for determining changes to interest rates, but does not include an extendible or retractable term debenture where a change of interest rate is authorized by by-law, a debenture issued to refund an outstanding other debenture at maturity, or a change of interest rate authorized by by-law where the council is of the opinion the change is necessary because the debentures remain unsold.

Variable interest rate debentures

2. All municipalities, including regional and district municipalities and the County of Oxford are prescribed for the purposes of subsection 149.1 (2) of the Act as municipalities that may issue variable interest rate debentures.

Condition

3. (1) A municipality shall not issue a variable interest rate debenture if the total amount of principal to be financed under the debenture, plus the total outstanding principal of all other variable interest rate debentures of the municipality, would exceed 15 per cent of the total outstanding principal of all undertaking or work indebtedness of the municipality plus the total amount of principal to be financed under the debenture.

(2) The amounts in subsection (1) may be estimated by the treasurer of the municipality.

(3) The calculation required by subsection (1) may be made only as at a date as close as is practical to any one or more of the following dates:

1. The date the treasurer updates the municipality's debt and financial obligation limit in respect of a work or class of work to be financed by the variable interest rate debenture.
2. The date the treasurer updates the municipality's debt and financial obligation limit in respect of an increase or potential increase in expenditure for a work or class of work because of the use of the variable interest rate debenture.
3. The date the variable interest rate debenture is issued.

(4) In this section,

“outstanding principal” means,

- (a) for a debenture with a sinking or retirement fund for the debenture, the difference between the principal amount of the debenture and the amount in the sinking or retirement fund,
- (b) any principal amount of a debenture other than a debenture in clause (a) that has not been repaid,
- (c) any principal amount of temporary borrowing or advances for an undertaking to be financed by or through the issue of debentures or long term debt that has not been repaid;

“undertaking or work indebtedness” means debenture debt and temporary borrowing or advances for an undertaking to be financed by or through the issue of debentures or long term debt.

(4) If the individual enters into a consolidated loan agreement and then becomes a qualifying student again, he or she is required to enter into a new consolidated loan agreement after ceasing to be a qualifying student, and the new agreement supersedes the old agreement.

29. If an individual does not enter into a consolidated loan agreement within six months after ceasing to be a qualifying student, the lender may establish the amount and duration of the repayments to be made to discharge the principal amount of all outstanding student loans made after July 31, 2001 and the interest on the outstanding balance from time to time.

Obligation to pay interest

30. (1) An individual is not required to pay interest under a student loan agreement or under a consolidated loan agreement until the last day of the month in which he or she ceases to be a qualifying student.

(2) The interest rate in effect on any day under a student loan agreement or a consolidated loan agreement is the prime rate on that day plus 1 per cent.

(3) In this section,

"prime rate" means the average variable reference rate of interest as calculated monthly based upon the average variable reference rates of interest for the month by each of the Bank of Montreal, the Bank of Nova Scotia, the Canadian Imperial Bank of Commerce, the Royal Bank of Canada and the Toronto-Dominion Bank as their rate for Canadian dollar consumer demand loans, calculated without reference to the highest and the lowest of those five rates and calculated by averaging the remaining three rates.

Repayment terms

31. (1) The term for the repayment of a student loan is to be determined by the lender in consultation with the borrower.

(2) The borrower is entitled to repay all or part of the student loan, without notice or bonus to the lender, before the period for repayment specified in the consolidated loan agreement expires.

(3) The minimum monthly payment by a borrower under a consolidated loan agreement is \$15.

(4) Subsection (3) does not apply with respect to the final payment under the agreement.

(5) Instalments of the repayment of a student loan are to be applied first to interest accrued to the date of the payment and then to the outstanding principal.

Amendment to prevent default

32. The lender and borrower may amend their consolidated loan agreement if the borrower notifies the lender that the terms of the agreement are such that he or she will be in default and if the lender considers that an amendment to the agreement will enable the borrower to meet his or her obligations under the agreement.

REDUCTION OF PRINCIPAL

Ontario Student Opportunity Grant

33. (1) This section applies if an individual receives (and is entitled to receive) student loans under the Act or loans under the *Canada Student Financial Assistance Act* for at least two academic terms that begin during a 12-month period, and if the first of the terms begins on or after August 1, 2001.

(2) When the individual enters into a consolidated loan agreement, the principal amount of the student loans given to the individual for all academic terms that begin during the 12-month period is reduced by the amount, if any, greater than zero that is calculated using the formula,

$$(A + B) - (\$3,500 \times C)$$

in which,

"A" is the total principal amount of the student loans that the individual received and was entitled to receive under the Act for all academic terms that began during the 12-month period,

"B" is the total principal amount of the loans that the individual received and was entitled to receive under the *Canada Student Financial Assistance Act* for all academic terms that began during the 12-month period, and

"C" is the number of academic terms that began during the 12-month period and in respect of which the individual received a student loan under the Act or a loan under the *Canada Student Financial Assistance Act*.

(3) Despite subsection (2) and subject to subsection (4), if the individual described in that subsection is granted a scholarship under subsection 27 (1) of the *Budget Implementation Act, 1998* (Canada) for one or more of the academic terms that begin during the 12-month period, the principal amount of the student loans given to the individual for all academic terms that begin during that period is reduced by the amount that is the greater of,

(a) \$25; or

(b) the amount calculated by adding \$500 to the amount calculated in accordance with the formula set out in subsection (2).

(4) Subsection (3) does not apply if the amount calculated under clause (3) (b) is less than zero.

(5) If the individual withdrew or was expelled from one or more academic terms during the 12-month period before completing the term, the term is not considered for the purposes of this section and any loan or scholarship the individual received for the term must not be included in the calculations under subsections (2) and (3).

(6) The Minister may determine that subsection (5) does not apply with respect to an individual's academic term, after the Minister considers the particular facts and the special circumstances of the individual.

(7) For the purposes of this section, the number of academic terms during a 12-month period is determined using the following Table, and is based on the number of weeks during the 12-month period in

which the individual is enrolled in an approved course of study at an approved institution.

TABLE

Number of Weeks of Enrolment	Number of Academic Terms
Less than 12 weeks	0
12 weeks or more, up to 21 weeks	1
21 weeks or more, up to 41 weeks	2
41 weeks or more, up to and including 52 weeks	3

Repayment to Minister

Criteria for granting extended relief

39. (1) If an individual's obligations under a consolidated loan agreement have been suspended for a cumulative period of 30 months, the Minister may suspend the individual's obligations for one or more further periods if the Minister is satisfied that the conditions of exceptional hardship still exist.

(2) Section 38 applies with respect to a suspension authorized by subsection (1).

(3) A suspension authorized by subsection (1) cannot extend beyond the date that is 60 months after the date on which the individual ceased to be a qualifying student.

4. The individual did something referred to in subsection 14 (3) that would authorize the Minister to refuse to issue a certificate of loan approval.

(2) If the Minister revokes the suspension of an individual's obligations, the Minister may require the individual to pay to the Minister the interest paid by the Minister to the lender on the individual's behalf during the period of the suspension.

(3) The individual shall promptly make the payment required by the Minister under subsection (2).

Defendant Objecting to Simplified Procedure

(7) In an action that includes a claim for real or personal property, if the defendant objected to proceeding under this Rule on the ground that the property's fair market value exceeded \$50,000 at the date the action was commenced and the court finds the value did not exceed that amount at that date, the defendant shall pay, on a substantial indemnity basis, the costs incurred by the plaintiff that would not have been incurred had the claim originally complied with subrule 76.02 (1), unless the court orders otherwise.

CONSÉQUENCES RELATIVES AUX DÉPENS**Participation**

76.13 (1) Quelle que soit l'issue de l'action, si la présente Règle s'applique par suite de la modification des actes de procédure prévue au paragraphe 76.02 (7) et sauf ordonnance contraire du tribunal, la partie dont les actes de procédure sont modifiés paie, sur une base d'indemnisation substantielle, les dépens engagés par la partie adverse jusqu'à la date de la modification, qui ne l'auraient pas été si la demande avait été initialement conforme au paragraphe 76.02 (1).

Dépens refusés au demandeur

(2) Les paragraphes (3) à (10) s'appliquent au demandeur qui obtient un jugement qui satisfait aux conditions suivantes :

- 1. Le jugement adjuge uniquement un ou plusieurs des éléments suivants :

(6) Le juge du procès peut, à sa discrétion, ordonner au demandeur de payer tout ou partie des dépens du défendeur, y compris les dépens d'indemnisation substantielle, en sus des dépens qu'il est tenu de payer aux termes du paragraphe 49.10 (2) (offre du défendeur).

Opposition du défendeur à la procédure simplifiée

Disposition transitoire

(10) Dans le cas d'une action qui a été introduite avant le 1^{er} janvier 2002, les paragraphes (2), (7) et (8) s'appliquent comme si la mention de «50 000 \$» valait mention de «25 000 \$».

(2) The application must include such information and documents as the service manager may require.

(3) The service manager may require the household to give the service manager written verification, from a person acceptable to the service manager and in the form specified by the service manager, of any of the following:

1. The income of any member of the household from any source.
2. The interest of any member of the household in any asset and the value of the interest of any member of the household in any asset.

- (a) the application and the consent have been filled out and signed; and
- (b) the decision-maker has received all other information and documents required by this Regulation or by the decision-maker, including information and documents from third parties

that the decision-maker requires for the purpose of verifying information and documents provided by the household.

(14) In applying this section to a family unit, a part of which is a benefit unit to which section 48 applies and the other part of which is not, a reference in this section to a family unit shall be deemed to be a reference to the part of the family unit that is not a benefit unit to which section 48 applies.

TAX RATIOS — CITY OF OWEN SOUND**Definitions**

1. In this Regulation,

"City" means The Corporation of the City of Owen Sound, which became part of the County for municipal purposes on January 1, 2001 as a result of an order under section 25.2 of the Act dated June 30, 2000;

"County" means The Corporation of the County of Grey;

"single-tier municipality" means a local municipality that does not form part of an upper-tier municipality for municipal purposes.

4. (1) For 2001 to 2004, inclusive, the City shall establish tax ratios for the City under subsection 363 (3) of the Act that may be different from the tax ratios established by the County under subsection 363 (4) of the Act and, for the purposes of section 363 of the Act, the City shall be deemed to be a single-tier municipality.

(2) The City shall establish its tax ratios,

(a) for 2001, on or before the 30th day following the day this Regulation is filed; and

(b) for each subsequent year, on or before April 30 of the year or such later date as the Minister of Finance may prescribe under subsection 363 (9) of the Act.

(3) In 2001 and each subsequent year, the City shall use the tax ratios established by the City under subsection 363 (3) of the Act to calculate with respect to each local municipality levy of the City under section 368 of the Act a separate tax rate on the assessment in each property class in the City rateable for purposes of the local municipality levy.

(4) In 2001 and each subsequent year, the City shall establish and levy, with respect to each upper-tier levy of the County under section 366 of the Act, a separate tax rate on the assessment in each property class in the City rateable for purposes of the upper-tier levy sufficient to raise the City's portion of the upper-tier levy calculated under section 3.

(5) The tax rates the City establishes under subsection (4) must be in the same proportion to each other as the tax ratios established by the City under subsection 363 (3) of the Act for the property classes are to each other.

(6) Subsections 366 (4.1) to (4.4) and (16.1) to (16.4) of the Act apply with necessary modifications to the tax rates established by the City for its purposes under subsection (4) and by the County for the purposes of the rest of the County under section 366 of the Act as if the City and rest of the County were two separate upper-tier municipalities.

(7) An upper-tier levy by-law of the County under section 366 of the Act shall set out the City's portion of an upper-tier levy calculated under section 3 and shall not establish tax rates to be levied by the City to raise the City's portion.

Upper-tier levy

3. (1) The portion of the general upper-tier levy or any special upper-tier levy of the County under section 366 of the Act to be raised in the City shall be determined in accordance with the following formula:

$$\text{City's portion} = B \times \frac{C}{D}$$

where,

B = the amount of the general upper-tier levy or special upper-tier levy, as the case may be,

C = the total of the weighted assessments for all properties in the City that are subject to the upper-tier levy,

D = the total of the weighted assessments for all properties in the County that are subject to the upper-tier levy.

(2) In subsection (1),

"weighted assessment" means the taxable assessment for a property multiplied by the tax ratio of the property class that the property is in as established by the County under subsection 363 (4) of the Act and, for this calculation, the City shall be deemed to have the same property classes as the County.

4. (1) The County may treat the City differently from the rest of the County under the following provisions:

1. Subsection 2 (3.1) of the *Assessment Act* (optional property classes).

2. Section 368.2 of the Act (graduated tax rates).

3. Sections 372, 372.1 and 372.2 of the Act (tax phase-in).

4. Section 373 of the Act (tax relief for seniors and persons with disabilities).

5. Section 442.1 of the Act (rebates for charities).

6. Section 442.2 of the Act (tax reductions).

7. Section 447.67 of the Act (recovery of revenues for 2001).

8. Section 447.69 of the Act (recovery of revenues for 2002 and subsequent years).

(2) If a by-law of the County treats the City differently from the rest of the County under a provision set out in subsection (1), for the purposes of that provision, the City shall be deemed to be a single-tier municipality and the parts of the by-law of the County that apply to the City shall be deemed to be a by-law of the City.

(3) Nothing in subsection (2) gives the City the power to pass, amend or repeal a by-law under a provision set out in subsection (1).

(4) The last day for the County passing a by-law for the 2001 tax year under the provisions set out in paragraphs 1, 2 and 6 of subsection (1) is extended to 30 days after the day this Regulation is filed.

PART VII SUBSIDIES

F × G/H

Definitions

27. In this Part,

"class" means, in respect of units in a housing project, a class that includes only townhouses or apartments of a specific size;

"transfer date" means, in respect of a housing provider's housing projects in a service area, the day on which this Regulation first applies to those housing projects.

Market rent index

28. (1) For the purposes of paragraph 2 of subsection 103 (7) of the Act, the market rent index applicable for a fiscal year to a housing provider's rent-geared-to-income units in housing projects in a service area is the index determined under the following rules:

1. If the fiscal year begins before the Minister determines the final amounts of the benchmark market rents applicable to those units, the market rent index is one.
2. If the fiscal year begins after the Minister determines the final amounts of the benchmark market rents applicable to those units, the market rent index applicable to those units is determined using the formula:

$$A / B$$

in which,

"A" is the sum of all amounts each of which is the product of the housing provider's index determined under subsection (2) for the fiscal year in respect of a class of units in the service area or in part of the service area, as applicable, multiplied by the average number of the housing provider's market units of that class in that service area or part of the service area in the fiscal year, and

"B" is the average number of the housing provider's market units in the service area in the fiscal year.

(2) For the purposes of paragraph 2 of subsection (1), a housing provider's index for a fiscal year in respect of a class of units in a service area or in part of a service area is determined using the formula:

$$(C \times D/B) + [E \times (B - D)/B]$$

in which,

"C" is the annual percentage change in rent for the fiscal year for the class of units of the housing provider in the service area or part of the service area, as the case may be, as set out in Table 2,

"D" is the total number of the housing provider's market units of that class in that service area or part of the service area for which there has been at least one change in household occupying the unit during the fiscal year,

"B" is the average number of the housing provider's market units in that service area or that part of the service area in the fiscal year, and

"E" is the rent guideline referred to in section 129 of the *Tenant Protection Act, 1997* for the calendar year in which the housing provider's fiscal year begins.

(3) For the purposes of paragraph 2 of subsection 103 (9) of the Act, the market rent index applicable to a housing provider's housing projects in a service area, for a fiscal year beginning after the Minister determines the final amount of the housing provider's benchmark market revenue in respect of those housing projects, is the index determined under the formula:

in which,

"F" is the market rent index that would be determined under subsection (1) for the housing provider for the fiscal year in respect of the service area if the housing provider had rent-geared-to-income units in the fiscal year in the service area,

"G" is,

(a) the final amount of the housing provider's benchmark market rent in respect of the housing projects, if the fiscal year is the first fiscal year referred to in paragraph 2 of subsection 103 (9) of the Act, or

(b) the housing provider's indexed market rent in respect of the housing projects for the previous fiscal year, if the fiscal year is subsequent to the fiscal year referred to in clause (a), and

"H" is,

(a) the final amount of the housing provider's benchmark market revenue from the housing projects, if the fiscal year is the first fiscal year referred to in paragraph 2 of subsection 103 (9) of the Act, or

(b) the housing provider's indexed market revenue from the housing projects for the previous fiscal year, if the fiscal year is subsequent to the fiscal year referred to in clause (a).

Operating reserve

29. (1) The amount of a housing provider's operating reserve, if any, in respect of its housing projects in a service area for a fiscal year ending after the transfer date for the purposes of subsection 103 (10) of the Act is the amount determined under the following rules:

1. If the housing provider's accumulated surplus in respect of the service area at the beginning of the fiscal year or at the beginning of any previous fiscal year that ends after the transfer date, as set out in its annual report for that fiscal year under section 113 of the Act, is equal to or greater than the product of \$300 multiplied by the number of the housing provider's units in housing projects in the service area at the beginning of that fiscal year, the housing provider's operating reserve for the fiscal year is nil.

2. If the amount determined in respect of the housing provider for the fiscal year under subsection (2) is nil or a negative amount, the housing provider's operating reserve for the fiscal year in respect of those housing projects is the amount by which "I" exceeds "J" where,

"I" is the product of 300 multiplied by the average number of the housing provider's units in the service area in the fiscal year, and

"J" is the housing provider's accumulated surplus for its housing projects in the service area at the end of the fiscal year.

3. If neither paragraph 1 nor 2 applies for the fiscal year, the housing provider's operating reserve for the fiscal year in respect of those projects is the amount by which "K" exceeds "L" where,

"K" is the housing provider's net operating income for the fiscal year from those housing projects, as determined for the purposes of subsection 103 (11) of the Act, and

"L" is the sum of the housing provider's affordable mortgage payment, as determined under subsection 103 (4) of the Act, and its mandatory payment for the fiscal year, if any,

(2) For the purposes of paragraph 2 of subsection (1), the amount determined under this subsection is the amount determined using the formula:

$$I - [J + (K - L)]$$

in which,

"I" and "J" are the amounts that would be determined under paragraph 2 of subsection (1) in respect of those housing projects for the fiscal year, and

"K" and "L" are the amounts that would be determined under paragraph 3 of subsection (1) in respect of those housing projects for the fiscal year.

(3) The amount of a housing provider's operating reserve, if any, in respect of its housing projects in a service area for a fiscal year ending after the transfer date for the purposes of subsection 106 (4) of the Act is the amount determined under the following rules:

1. If the housing provider's accumulated surplus in respect of the service area at the beginning of the fiscal year or at the beginning of any previous fiscal year that ends after the transfer date, as set out in its annual report for that fiscal year under section 113 of the Act, is equal to or greater than the product of \$300 multiplied by the number of the housing provider's units in housing projects in the service area at the beginning of that fiscal year, the housing provider's operating reserve for the fiscal year is nil.

2. If the amount determined in respect of the housing provider for the fiscal year under subsection (4) is nil or a negative amount, the housing provider's operating reserve for the fiscal year in respect of those housing projects is the amount by which "I" exceeds "J" where,

"I" is the product of 300 multiplied by the average number of the housing provider's units in the service area in the fiscal year, and

"J" is the housing provider's accumulated surplus for its housing projects in the service area at the end of the fiscal year.

3. If neither paragraph 1 nor 2 applies for the fiscal year, the housing provider's operating reserve for the fiscal year in respect of those projects is the amount by which "M" exceeds "N" where,

"M" is the housing provider's indexed operating costs for the fiscal year from those housing projects, and

"N" is the amount of the housing provider's operating costs for the fiscal year for those housing projects.

(4) For the purposes of paragraph 2 of subsection (3), the amount determined under this subsection is the amount determined using the formula:

$$I - [J + (M - N)]$$

in which,

"I" and "J" are the amounts that would be determined under paragraph 2 of subsection (3) in respect of those housing projects for the fiscal year, and

"M" and "N" are the amounts that would be determined under paragraph 3 of subsection (3) in respect of those housing projects for the fiscal year.

(5) For the purposes of this section, a housing provider's accumulated surplus in respect of a service area at the beginning of a fiscal

year, as set out in its annual report under section 113 of the Act and determined in accordance with generally accepted accounting principles as they apply to social housing, that can reasonably be considered to be derived from its housing projects in the service area.

(6) All amounts that are not whole numbers that are used in calculations under this section or that result from calculations under this section must be rounded to two decimal places.

Revenue and operating costs

30. (1) For the purposes of subsection 103 (11) of the Act, the revenue of a housing provider for a fiscal year with respect to its housing projects in a service area is the total of the following types of revenue earned by the housing provider in the fiscal year in respect of the housing projects and units in the housing projects:

1. Revenue derived from the parts of the housing projects allocated to residential accommodation.
2. Revenue related to the parts of the housing projects allocated for use by residents of the housing projects including revenue derived from the use of meeting rooms, recreational facilities, laundry facilities, parking areas, exterior grounds, external building walls and roofs.

(2) For the purposes of subsection 103 (11) of the Act, a housing provider's operating costs for a fiscal year from its housing projects in a service area equal the total amount of the following expenses, allowances and contributions of the housing provider for the year that are reasonably applicable to the portions of those housing projects used for residential accommodation and ancillary functions, as determined in accordance with generally accepted accounting principles as they apply to social housing:

1. Salaries, wages and employment benefits.
2. Maintenance expenses.
3. Utility costs, including electricity, fuel, water and sewer charges.
4. Administration expenses.
5. Insurance premiums.
6. Bad debt expenses.
7. Contributions to the housing provider's capital reserve.

(3) For the purposes of this section, gifts and donations made to a housing provider are not considered to be revenue of the housing provider.

Benchmark amounts

31. (1) For the purposes Part VI of the Act, the Minister shall determine a housing provider's benchmark revenue and benchmark costs for its housing projects in a service area based on an analysis of historical data from comparable housing projects operated under comparable market conditions.

(2) The Minister shall determine a housing provider's benchmark market rent for each unit in a housing project based on an analysis of historical data from comparable units in comparable housing projects operated under comparable market conditions.

Section 106 housing providers

32. For the purposes of section 106 of the Act, the cost index for a fiscal year applicable to the housing projects in a service area of a housing provider named in Table 3 is the index set out in the same row of that Table as,

- (a) the name of the housing provider;
- (b) the calendar year in which the fiscal year ends; and

- (c) the name of the service manager for the service area in which the housing projects are located.

Change in economic conditions

33. (1) This section applies to a housing provider in respect of its housing projects located in a service area in a part of Ontario determined by the Minister for the purposes of subsection 110 (2) of the Act.

(2) Despite section 103 of the Act, if this section applies to a housing provider for a fiscal year in respect of its housing projects in a service area, the amount of the housing provider's subsidy under section 102 of the Act for the fiscal year in respect of those housing projects is the amount that would be determined under section 103 of the Act for the fiscal year if the amount of the housing provider's mandatory payment for the fiscal year in respect of those housing projects for the purposes of subsection 103 (2) of the Act were the lesser of,

- (a) the amount that otherwise would be determined to be its mandatory payment for the fiscal year in respect of those housing units under subsection 103 (8) of the Act; and
- (b) the amount of its adjusted mandatory payment for the fiscal year in respect of those housing projects.

(3) For the purposes of subsection (2), the amount of a housing provider's adjusted mandatory payment for a fiscal year in respect of its housing projects in a service area is the amount determined using the formula:

$$A - B$$

in which,

"A" is the difference between the housing provider's indexed market rents for the fiscal year from all units in those housing projects and the total of the housing provider's benchmark market rents for those units, as determined under this Part, and

"B" is the difference between the housing provider's indexed operating costs for the fiscal year in respect of those housing projects and the benchmark operating costs for those housing projects.

(4) For the purposes of subsection (3), a housing provider's indexed operating costs for a fiscal year in respect of its housing projects in the service area is the amount that otherwise would be determined under the rules in subsection 106 (3) of the Act for the fiscal year in respect of the housing projects, if that subsection applied to the housing provider, using the indices set out in Table 4 opposite the name of the service manager for the service area in which the housing projects are located and calendar year in which the fiscal year ends.

(5) For the purposes of subsections (1) and (2), an amount determined under subsection (2) or (3) may be a positive or negative number or zero.

(6) Subsection 103 (5) of the Act applies with necessary modifications if the amount of subsidy payable to a housing provider, as determined under this section, is less than the subsidy (other than a rent-geared-to-income subsidy) paid to the housing provider under an operating agreement that is terminated by the Act.

(7) Section 105 of the Act applies with necessary modifications in respect of a housing provider entitled to a subsidy calculated under this section.

Additional subsidy

34. (1) A service manager may impose the following terms and conditions for the payment of an additional subsidy to a housing provider:

1. The service manager may require the housing provider to provide proof to the satisfaction of the service manager that the housing provider requires the additional subsidy.
2. The service manager may require the housing provider to repay all or part of the additional subsidy within a period of time specified by the service manager.
3. If the housing provider is required to repay all or part of the additional subsidy, the service manager may require the housing provider to establish a reasonable schedule for the repayment and to demonstrate to the satisfaction of the service manager how the housing provider intends to fund the repayment.
4. If the housing provider is required to repay all or part of the additional subsidy, the service manager may require the housing provider to submit the housing provider's annual budgets for the housing projects for review and approval by the service manager for five or fewer fiscal years after the fiscal year in which the additional subsidy is repaid or its repayment is forgiven by the service manager.
5. If the housing provider is required to repay all or part of the additional subsidy, the service manager may require the housing provider to provide reports on the following at such times as the service manager may direct during the period that ends not later than five years after the additional subsidy is repaid or its repayment is forgiven by the service manager:
 - i. the market rents established by the housing provider for units in the housing project, and
 - ii. the variances and explanations of the variances between amounts forecasted in the housing provider's budgets, as approved by the service manager, and actual amounts.
6. The service manager may require the housing provider to retain a person acceptable to the service manager to provide property management services or to terminate a contract for property management services in accordance with the terms of the contract and enter into a contract for property management services with a different person acceptable to the service manager.
7. The service manager may require the housing provider to increase its revenue by increasing occupancy charges or market rents on units, subject to any restriction imposed by the *Tenant Protection Act, 1997*.
8. The service manager may require the housing provider to obtain training for its staff or directors.
9. Subject to the Act and the regulations, the service manager may impose restrictions on the amount the housing provider may expend on eligible capital expenditures.
10. Subject to subsection 111 (4) of the Act and subsection (2), the service manager may require the housing provider to agree to such temporary amendment to the housing provider's targeting plan for the housing project to which the additional subsidy relates or to the housing provider's mandate as the service manager may specify.

(2) A temporary amendment mentioned in paragraph 10 of subsection (1) must provide that it ceases to apply and the original provisions of the targeting plan or mandate, as the case may be, applies as of a day that is not later than two years after the day the temporary amendment takes effect.

Determinations of deemed electricity production

2. (1) In this section,

"following year" means, with respect to a determination of a facility's deemed electricity production, the year following the year in which the determination is made;

"preceding year" means, with respect to a determination of a facility's deemed electricity production, the year preceding the year in which the determination is made.

(2) Subject to subsections (3) to (16), for the purposes of this Regulation, a generation facility's deemed electricity production shall be determined by the Director in accordance with the following formula:

$$A + B + C$$

where,

A = the amount of electricity generated by the facility in the preceding year,

B = if electricity was first generated by the facility in the preceding year, the amount of electricity that the owner of the facility estimates will be generated by the facility during the part of the following year that ends on the day before the second anniversary of the day electricity was first generated by the facility,

C = if electricity will first be generated by the facility after the end of the preceding year, the amount of electricity that the owner of the facility estimates will be generated by the facility during the following year.

(3) If the owner of a generation facility makes an estimate of an amount of electricity for the purpose of the definition of "B" or "C" in subsection (2) and the Director is of the opinion that the estimate is

(4) Subsections (5) to (9) only apply to the determination of a generation facility's deemed electricity production if,

(a) a previous determination of the facility's deemed electricity production was made;

(b) the new determination is being made in the second year after the previous determination; and

(c) when the previous determination was made, the amount of "B" or "C" that was used for the purpose of subsection (2) was greater than zero.

(5) In subsections (6) and (7),

"completed production year" means the year following the year in which the previous determination referred to in subsection (4) was made.

(6) If, when the previous determination referred to in subsection (4) was made, the amount of "B" that was used for the purpose of subsection (2) was greater than zero, the Director shall, as part of the new determination, calculate the following amount:

$$X - Y$$

where,

X = the amount of electricity produced by the generation facility during the part of the completed production year that ended on the day before the second anniversary of the day electricity was first generated by the facility,

Y = the amount of "B" that was used for the purpose of subsection (2) when the previous determination was made.

(7) If, when the previous determination referred to in subsection (4) was made, the amount of "C" that was used for the purpose of subsection (2) was greater than zero, the Director shall, as part of the new determination, calculate the following amount:

$$X - Y$$

where,

X = the amount of electricity produced by the generation facility during the completed production year,

Y = the amount of "C" that was used for the purpose of subsection (2) when the previous determination was made.

(8) If this subsection applies to the determination of a facility's deemed electricity production and an amount calculated under subsection (6) or (7) is greater than zero, the facility's deemed electricity production is the amount determined under subsection (2), increased by the amount calculated under subsection (6) or (7).

(9) If this subsection applies to the determination of a facility's deemed electricity production and an amount calculated under subsection (6) or (7) is less than zero, the facility's deemed electricity production is the amount determined under subsection (2), reduced by the following amount:

(10) Despite subsections (2) to (9), but subject to subsection (11), if, for the purpose of section 8, a determination is made in 2004 of the Lakeview Generation Facility's deemed electricity production, the facility's deemed electricity production is the amount of electricity

that the owner of the facility estimates will be generated by the facility during the period from May 1, 2005 to December 31, 2005.

(11) If the owner of the Lakeview Generation Facility makes an estimate of an amount of electricity for the purpose of subsection (10) and the Director is of the opinion that the estimate is too high, the Director may, for the purpose of that subsection, substitute a lower estimate made by the Director.

(12) If a determination is made in 2006 of the Lakeview Generation Facility's deemed electricity production for the purpose of section 10 and a determination of the facility's deemed electricity production was made in 2004 for the purpose of section 8, the Director shall, as part of the determination made in 2006, calculate the following amount:

$$X - Y$$

where,

X = the amount of electricity produced by the Lakeview Generation Facility during the period from May 1, 2005 to January 1, 2005,

Y = the estimate that was used in 2004 for the purpose of subsection (10) of the amount of electricity that would be produced by the Lakeview Generation Facility during the period from May 1, 2005 to January 1, 2005.

(13) If a determination is made in 2006 of the Lakeview Generation Facility's deemed electricity production for the purpose of section 10 and the amount calculated under subsection (12) is greater than zero, the facility's deemed electricity production is the amount determined under subsection (2), increased by the amount calculated under subsection (12).

(14) If a determination is made in 2006 of the Lakeview Generation Facility's deemed electricity production for the purpose of section 10 and the amount calculated under subsection (12) is less than zero, the facility's deemed electricity production is the amount determined under subsection (2), reduced by the following amount:

$$-1.1 \times A$$

where,

A = the amount calculated under subsection (12).

(15) Despite subsections (2) to (14), a generation facility's deemed electricity production determined in a year for the purpose of section 8, 10 or 11 shall be deemed to be zero if the Director is satisfied that,

- (a) the facility will have a name plate capacity of more than 25 megawatts at no time in the following year;
- (b) the facility will not generate more than 20,000 megawatt hours of electricity in the following year that will be conveyed into the IMO-controlled grid or sold; or
- (c) the quotient determined by dividing the amount of nitric oxide that will be emitted from the facility in the following year by the amount of electricity that will be generated by the facility in the following year will not be more than 0.01 kilograms per megawatt hour.

(16) Despite subsections (2) to (9), a generation facility's deemed electricity production determined in a year for the purpose of section 14 shall be deemed to be zero if the Director is satisfied that,

- (a) the facility will have a name plate capacity of more than 25 megawatts at no time in the following year;
- (b) the facility will not generate more than 20,000 megawatt hours of electricity in the following year that will be conveyed into the IMO-controlled grid or sold; or

(c) the quotient determined by dividing the amount of sulphur dioxide that will be emitted from the facility in the following year by the amount of electricity that will be generated by the facility in the following year will not be more than 0.05 kilograms per megawatt hour.

(17) If a determination of a generation facility's deemed electricity production is required by this Regulation, the Director may require the owner of the facility to submit to the Director information on the amount of electricity produced by the facility during any period referred to in this section.

1. Severance pay equal to one-half week of salary for each year of continuous service before January 1, 1970 and one week of salary for each year of continuous service from and including January 1, 1970.
2. The amount in respect of his or her accumulated attendance credits computed in accordance with section 31.

33. (1) A full-time justice of the peace who is appointed on or after January 1, 1970 is entitled to the severance pay described in this section for each year of continuous service up to and including December 31, 1975.

(2) A full-time justice of the peace is entitled to receive an amount equal to one week of salary for each year of service if he or she has completed one year of continuous service and ceases to be a justice of the peace because of,

 - (b) that portion of a week's salary that is equal to the portion his or her regularly scheduled hours of work bear to full-time work, for each year of continuous service as an eligible part-time justice of the peace.
- (3) For the purpose of clause (2) (b),

"week's salary" means the salary the justice of the peace would receive if the justice of the peace were a full-time justice of the peace.

(4) Despite the definition of "continuous service" in section 1.1, for the purpose of this section, his or her period of continuous service under the *Legislative Assembly Act* immediately prior to his or her appointment as a justice of the peace under the Act or as a public servant under the *Public Service Act* shall be taken into account in computing the minimum period of continuous service mentioned in clause (1) (b) and in computing the severance pay mentioned in subsection (1), but the severance pay to which the justice of the peace is entitled under that subsection shall be reduced by an amount equal to the amount, if any, of the severance pay received by the justice of the peace in respect of the termination of his or her service under the *Legislative Assembly Act* for any period of such service that is also taken into account in computing his or her severance pay under subsection (1).

(5) In subsection (4),

"service under the *Legislative Assembly Act*" includes continuous service for at least one year as an employee of the caucus of a political party or of a member of the Assembly where his or her salary is paid out of money appropriated for the use of the caucus or member under the *Legislative Assembly Act*.

35. Despite section 34, where in the opinion of the Chief Justice special circumstances exist, a payment may be made by way of termination allowance, with the approval of the Lieutenant Governor in Council, to a justice of the peace when he or she ceases to be a justice of the peace.

36. (1) The total of the amount paid to a justice of the peace in respect of accumulated attendance credits and the severance pay of the justice of the peace shall not exceed one-half of the annual salary of the justice of the peace,

- (a) at the date when he or she ceases to be a justice of the peace; or
- (b) in the case of a justice of the peace receiving benefits under the Long Term Income Protection Plan, at the date when the justice of the peace received his or her last salary prior to receiving benefits under the Plan.

(2) The calculation of severance pay of a justice of the peace is based on the salary of the justice of the peace,

- (a) at the date when he or she ceases to be a justice of the peace; or
- (b) in the case of a justice of the peace receiving benefits under the Long Term Income Protection Plan, at the date when the justice of the peace received his or her last salary prior to receiving benefits under the Plan.

(3) If a computation for severance pay involves part of a year, the computation in respect of that part shall be made on a monthly basis, and,

- (a) any part of a month that is less than 15 days is disregarded; and
- (b) any part of a month that is 15 or more days shall be deemed to be a month.

(4) For the purposes of this section, the salary of a part-time justice of the peace shall be determined as if he or she were a full-time justice of the peace.

37. (1) A justice of the peace is entitled to receive only one termination payment for a given period of continuous service.

(2) A justice of the peace whose total period of service is interrupted by a hiatus in service may, at his or her option, repay to the Minister of Finance any termination payment received as a result of that absence, and thereby restore termination pay entitlements for the period of continuous service for which the payment had been made.

(3) A justice of the peace who intends to cease to be a justice of the peace and who would, upon doing so, be entitled to a termination payment under section 33, 34, 35 or 36 may elect, in lieu of the payment provided for in those sections, to take a leave of absence with pay of not more than the lesser of,

- (a) the length of time determined under those sections for computing the termination payment to which the justice of the peace would be entitled; and
- (b) the length of time between the commencement of the leave of absence with pay and the end of the month in which the justice of the peace will attain 70 years of age.

(4) The period of service of a justice of the peace who has elected under subsection (3) to take a leave of absence with pay continues until the end of the leave of absence.

(5) Subject to subsection (6), his or her entitlement to a termination payment under section 31, 32, 33 or 34 shall be reduced to reflect the time taken by the justice of the peace under subsection (3) as a leave of absence with pay.

(6) If a justice of the peace has been given a leave of absence with pay under section 21,

under subsection (3); and

- (b) for a period of time equal to the leave of absence with pay taken by the justice of the peace under subsection (3),

his or her entitlement to a termination payment under section 31, 32, 33 or 34 is reduced to reflect one-half of the time taken by the justice of the peace under subsection (3) as a leave of absence with pay; and, one-half of each day of the total number of days of leave granted under section 21 and of leave taken under subsection (3) is allocated to each of the leaves of absence.

- (7) Subsections (3) to (6) apply despite section 31, 32, 33 or 34.

DEATH PAYMENT

38. (1) When a full-time justice of the peace who has served for more than six months dies, there shall be paid to his or her personal representative or if there is no personal representative to such person as the Chief Justice determines, the sum of one-twelfth of his or her annual salary.

(2) Any severance pay to which a full-time justice of the peace is entitled under this Regulation is reduced by an amount equal to any entitlement under subsection (1).

SOCIAL HOUSING REFORM ACT, 2000

Made: November 7, 2001
Filed: November 8, 2001

Amending O. Reg. 642/00

(Determination, Allocation, Apportionment and
Billing of Housing Costs)

Note: Regulation 642/00 has previously been amended by Ontario Regulations 8/01 and 366/01.

1. Section 26 of Ontario Regulation 642/00 is revoked and the following substituted:

26. In this section and in sections 26.1 to 26.3,

"GTA service manager" has the meaning given to that expression by section 135 of the Act;

"housing costs" means, in respect of a GTA service manager for a period, its housing costs for the period under section 127 of the Act.

26.1 (1) For the purposes of clause 136 (5) (a) of the Act, the Minister shall reallocate for a period to those GTA service managers who are sharing GTA service managers for the period the amount by which the sum of the housing costs for the period of all GTA service managers who are supported GTA service managers for the period exceed the sum of the net housing costs for the period of those supported GTA service managers.

(2) The total amount to be reallocated to a sharing GTA service manager for a period is the amount by which its net housing costs for the period exceed its housing costs for the period.

(3) For the purposes of clause 136 (5) (c) of the Act, the amount payable by a sharing GTA service manager to a supported GTA service manager is determined using the formula:

$$P \times X/Y$$

in which,

"P" is the amount by which the net housing costs for the period of the sharing GTA service manager exceeds its housing costs for the period,

"X" is the amount by which the supported GTA service manager's housing costs for the period exceed its net housing costs for the period, and

"Y" is the sum of all amounts each of which is the amount by which a supported GTA service manager's housing costs for the period exceed its net housing costs for the period.

(4) Nothing in subsections (1) to (3) relieves a GTA service manager from its obligation to pay to the Minister the portion of the provincial housing costs allocated to it under section 123 of the Act.

(5) In this section,

"net housing costs" means, in respect of a GTA service manager, the amount determined under section 26.2;

"sharing GTA service manager" means, in respect of a period, a GTA service manager whose net housing costs for the period exceed its housing costs for the period;

"supported GTA service manager" means, in respect of a period, a GTA service manager whose housing costs for the period exceed its net housing costs for the period.

26.2 (1) For the purposes of section 26.1, the amount of a GTA service manager's net housing costs for a period is the amount determined using the formula:

$$C \times R$$

in which,

"C" is the sum of the housing costs of all of the GTA service managers for the period,

"R" is the ratio of the weighted assessment of the GTA service manager for the period to the sum of the weighted assessments of all of the GTA service managers for the period.

(2) For 2001, the ratio of the weighted assessment of a GTA service manager to the sum of the weighted assessments of all of the GTA service managers is deemed to be the ratio set out opposite the name of the GTA service manager in Schedule 4.

(3) For 2002 and subsequent years, the weighted assessment of a GTA service manager is the sum of all amounts, each of which is the weighted assessment for a property class in the GTA service manager's service area determined using the formula,

$$W \times A$$

in which,

"W" is the GTA-wide weighted transition ratio for the property class, and

"A" is the sum of the net taxable assessments for the previous year of all properties in the property class in the GTA service manager's service area.

(4) The GTA-wide weighted transition ratio for a property class set out in Schedule 5 is the ratio set out opposite the property class in that Schedule.

(5) The GTA-wide weighted transition ratio for a property class that is not set out in Schedule 5 is the amount determined as follows:

1. For each GTA service manager, multiply the sum of the net taxable assessments for the previous year of all properties in the property class in the GTA service manager's service area by the transition ratio applicable to that property class and service area.
2. Add the products calculated under paragraph 1 in respect of the GTA service managers.
3. Divide the sum calculated under paragraph 2 by the sum of the net taxable assessments for the previous year of all properties in the property class in the service areas of all of the GTA service managers.

(6) In this section,

"net taxable assessment" means,

(a) with respect to property that is in a subclass to which section 368.1 of the *Municipal Act* applies, the taxable assessment for the property, as reduced by the percentage reduction that applies with respect to that assessment under section 368.1 of that Act, and

(b) in respect of property not referred to in clause (a), the taxable assessment in respect of the property;

"property class" means a class of real property prescribed under the *Assessment Act*;

"taxable assessment" means, in respect of a property, the assessment of the property on which tax rates are levied under section 366 or 368 of the *Municipal Act*;

"transition ratio" means, in respect of a service area for a property class not set out in Schedule 6, the transition ratio or average transition ratio, as applicable, that is prescribed for the purposes of section 363 of the *Municipal Act* for the property class in the service area.

26.3 The Minister shall make appropriate adjustments in determining the amount of housing costs of GTA service managers to be reallocated or paid for a period that begins either before or after sections 26.1 and 26.2 come into force,

- (a) to ensure that amounts are reallocated and paid for the period in accordance with those sections; and
- (b) to take into account any differences between actual amounts and the amounts used in determining the amounts to be reallocated or paid.

2. The Regulation is amended by adding the following section:

27.1 (1) A GTA service manager who makes a request under subsection 138 (1) of the Act for a review of an allocation shall include the following with the request:

1. A statement setting out the reasons for the request and the information on which the GTA service manager relies.
2. Documents and other material in support of the request.
3. A statement setting out the names or titles of the officers, employees or agents of the GTA service manager who may be contacted concerning the request and how they may be contacted.

(2) The Minister shall consider the following criteria in determining whether an allocation is reviewable on the request of the GTA service manager:

1. Whether the reallocation is incorrectly calculated.
2. Whether the information used in calculating the reallocation is incorrect or incomplete.
3. **Items 5, 20, 29, 38 and 43 of Table 1 of Schedule 2 to the Regulation are revoked.**
